## LETTER FROM THE CHAIRMAN

Dear Governor Ducey:

In accordance with A.R.S. §36-1944, I am pleased to present the Arizona Board of Executive Clemency FY17 Annual Report. In this report, you will find information regarding the activities of the Board and its staff throughout the year. Despite the small size of the agency, you will see that staff and members are committed and dedicated to fulfilling the statutory requirements imposed upon the Board. We believe it has been a productive year with continued improvement in overall operations and business processes. The Board of Executive Clemency continues to work closely with the Department of Corrections to appropriately use resources to facilitate an offender's successful reentry to our communities.

This past year the Board experienced a number of membership challenges and leadership change. Four new members were appointed in 2017 and the Board's former Chairman, Ellen Kirschbaum, became the Executive Director. Ms. Kirschbaum worked tirelessly to move this Board forward as its Chairman and she continues to do so as its Executive Director.

Public safety is at the forefront of the Board's work. Last year, we embarked upon a journey to implement structured decision making. This was a recommendation that came forth from the Auditor General's sunset audit. This became a key focus this past year. However, just before the Phase I part of the project was to begin, it was placed on hold due to budget issues with the National Institute of Corrections and member vacancies that extended for a period of time. It was believed that postponing the project until new members were brought on Board would be the optimal decision. We are pleased to report that the Board is once again working with the National Institute of Corrections and scheduled soon to begin Phase I of the project. We envision the Board working closely with the Department of Corrections Community Supervision as we all share the same goals for the community.

We value your administration's guidance and seek to implement best practices in the Board's management of its resources. We are honored to serve your administration and support your leadership to move Arizona to be the greatest state in the nation. Once again, we are deeply grateful for recognizing Board members as full-time employees and granting benefits as other employees. All members and staff look forward to our challenge of doing what it takes to achieve our mission while enhancing offender success and public trust. We maintain our commitment to preserve and promote the public's safety. I am humbled to serve with such a dedicated and hardworking group of professionals.

Sincerely,  
Dr. C.T. Wright, Chairman

The Board of Executive Clemency is comprised of five members with each member appointed by the Governor and confirmed by the State Senate. The Governor appoints the Chair for a two year term. Members are recognized as state employees with full benefits. A Board member earns approximately \$48,000 per year. Members conduct hearings throughout the day and prepare later for the following day's hearings. '

The Board experienced a number of changes this past year. Former members (Brian Livingston, Laura Steele, and Sandra Lines) terms expired. Another vacancy occurred when Ms. Kirschbaum stepped down as Chairman to become the Board's Executive Director. As of July, 2017, all seats on the Board have been filled.

## Board Staff

---

### **Executive Director:** Ellen Kirschbaum

Ms. Kirschbaum was originally appointed to the Board by Governor Janice Brewer in December, 2010 and later appointed as Chairman in October, 2014. In January, 2015, Governor Douglas Ducey appointed her to a second term and she was confirmed by the Arizona Senate. In November, 2016, she stepped down from the Board to become its Executive Director. She is focused in bringing about the Board's mission to conduct prompt, fair, and impartial hearings based on public safety. Ms. Kirschbaum's experience spans 38 years in Arizona's criminal justice system including nearly 20 years in the field of corrections. She is involved in a number of community activities and serves on several community boards. She holds a Bachelor of Science in Business Administration from Arizona State University and a

Masters of Public Administration from Western International University. Ms. Kirschbaum has been a resident of Arizona since 1968.

Pursuant to Arizona Revised Statutes 31-402, the Executive Director serves at the pleasure of the Board and reports to the Board through the Chairman. She is responsible for meeting the needs of the Board through oversight of all administrative, operational, and financial functions for the Board including implementing and directing all policies and procedures, personnel matters including hiring, training, discipline as well as performance evaluations of all administrative staff members. The Executive Director also leads in budget preparation, forecasts, and expenditures.

This process is particularly critical as board members review these comprehensive packets to facilitate their decision making. Staff also process and fulfill public record requests according to law and Board policy and take on special projects as directed by the Executive Director.

# FINANCIAL INFORMATION

## BUDGET INFORMATION

The Board's FY17 General Fund appropriation was **\$952,600**. The Board also receives **\$43,700** in grant funds from the Arizona Attorney General's Victims' Rights Program through the Office of Victim Services for funding of the Victim Notification Coordinator position.

This year, the Board experienced significant vacancy savings due to board member vacancies. As a result, the Board was able to return 22% (\$206,021) of its budget back to the State General Fund.

## **BOARD ACTIVITY AND STATISTICAL SUMMARY**

The Board is statutorily authorized to conduct hearings for clemency and non-clemency matters. Non-clemency hearings do not require a recommendation to the Governor but instead the Board makes decisions on its own. These are Parole (412A), Parole (412B), Home Arrest, Absolute Discharge, Work Furlough, Modification, Rescission, and Revocation matters for parole, "TIS" (truth in sentencing), and home arrest revocation hearings.

All types of clemency, under the criminal justice system, is the act by an executive member of government of extending mercy to a convicted individual. In the United States, clemency is granted by a governor for state crimes and by a president for federal crimes. Clemency can take one of three forms: a reprieve, a commutation of sentence, or a pardon. The Board recommends individuals to the Governor seeking pardons, reprieves, and commutations.

Board hearings are the only place in the criminal justice system where the victim, the inmate, and the families can come together since the original law enforcement contact and have a chance to tell their stories. For the very tiny percentage of those cases that may not have received justice, the system offers this mechanism to correct itself.

All hearings conducted by the Board are done in accordance with the Open Meeting Law.

### **Board Decisions**

Prior to January 01, 1994, individuals sentenced by the Court were eligible for parole. After completing a certain amount of their sentence, they were certified eligible by the Arizona Department of Corrections and referred to the Arizona Board of Pardons and Paroles to be scheduled for a parole hearing. Parole was abolished by the Legislature in 1993 and the Board became known as the Board of Executive Clemency. Therefore, on and after January 01, 1994, individuals who committed an offense are sentenced under strict sentencing guidelines known as "Truth in Sentencing (TIS)." Unless statutorily mandated otherwise, most inmates serve approximately 85% of their sentence in prison and are then released to the community for supervision of the rest of their sentence.

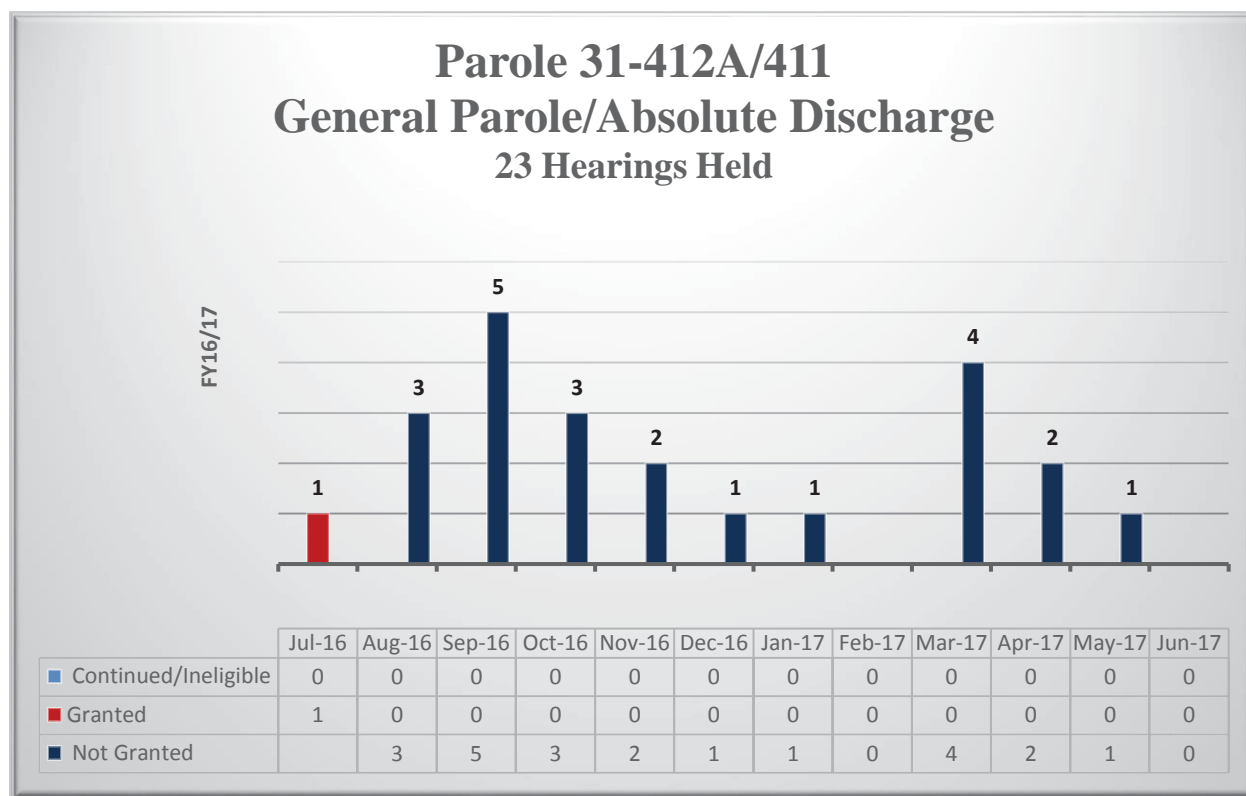

While the number of classic parole cases has decreased in recent years, the Board still conducts a notable number of these hearings. They may involve the potential release of an inmate or the ability to move forward to a consecutive sentence.

Parole is considered an early release with supervision prior to the expiration of a sentence of incarceration. It is a privilege not a right. Clear conduct and addressing the issues that got inmates sent to prison are just some of the factors considered. The only right an inmate has is to be released upon completion of the sentence that was handed down by the Court. Every inmate sentenced to the Arizona Department of Corrections is given a parole eligibility date if the offense date occurred prior to January 01, 1994.

The Board directly interacts with the inmate or offender and these hearings can sometimes last for several hours as many cases reflect high-profile matters that can include testimony from inmate supporters, victims of crimes, the inmate's counsel, and/or prosecutors. Additionally, the Board also conducts absolute discharge hearings where a parolee on supervision is seeking release from all forms of supervision.

However, a significant amount of time encountered by members is a dramatically larger docket of parole and TIS revocation hearings. These consist of technical and new sentence revocations. These hearings can be complex, fact-finding affairs sometimes involving attorneys on both sides of the questions, witness testimony, cross-examinations, and volumes of documentary evidence.

## Executive Clemency

Perhaps the most visible work of the Board involves executive clemency proceedings, which are petitions from individuals seeking clemency in the form of a pardon, a commutation of sentence including death penalty matters, and reprieve. These matters require a majority vote in order to be recommended to the Governor for that action. After these hearings are held, the Board's staff prepares the submittal and it is hand-delivered to the Executive Office for a final determination.

## VICTIM NOTIFICATION

The Board is mandated to provide hearing notification within specific timeframes and is dedicated in its efforts to provide notification and information to victims. This is set forth in **A.R.S. §13-4417(A)** Request for notice; forms; notice system.

With these notifications, the Board members are provided notices of victims' intent to participate at a hearing and receive the outcome of that hearing. Victims may participate by phone, in person, or via written statements. Most victims who want to know how they can be made aware of and involved in any hearing process are provided information and made aware of the Victim Services Unit located in the Arizona Department of Corrections (ADC). This unit ensures victims' information is located in ADC's victim information database and will provide any requested victim advocacy.

Since 2015, the Board has received grant funding from the Arizona Attorney General's Office of Victim Services under the Victim Rights Program. In FY17, the Board was again granted funding of \$43,700 for the Board's Victim Notification Coordinator. The Board's Victim Notification Coordinator works directly with victims to advise them that they are invited to submit their opinions to the Board at any time, concerning any upcoming hearing. Victims may also request that certain conditions and restrictions be imposed on the offender if released to supervision. The following is the activity data reported for the grant position.

## **STRUCTURED DECISION MAKING**

As reported in the FY16 Annual Report, the Board was granted technical assistance through the National Institute of Corrections (NIC) to implement structured a decision-making model (SDM). SDM is based on a validated model developed in Canada as a tool to assist board members in decision making. It was piloted in several states a few years ago and is a validated framework for boards. Technical assistance is now offered through the National Institute of Corrections to help guide other states with implementation.

SDM acts a road map or guideline for decision makers to reach consistent, transparent and defensible, high-quality release decisions. It acknowledges the professional expertise and extensive experience of parole decision makers by using a structured approach through the process of the hearing by considering offender information demonstrated to be closely linked to post release success. Through the technical assistance program, the National Institute of Corrections will assist the Board in understanding how SDM has been implemented in other states.

The Board continues to hold the implementation of SDM as one of its priorities in FY18. The Board was delayed from its original start date in 2016 due to member changes on the Board and the need for those new members to complete Board training as well as an orientation training provided by National Institute of Corrections. This has been accomplished and later this year, the Board will embark upon Phase I of the project. Phase I will provide an opportunity to observe and study SDM's implementation in another state and bring back information to begin the Phase II process with the assistance provided by NIC.
